

NEIGHBOURHOOD PLAN MEETING

5th Nov 2019

Present: Julie Coleman, Dawn Saunders, Tim Burton, Peter Russ, Steve Medhurst, Astrid Benson & Bridget Stait.

- Follow on from the previous meeting on the 1 October where the committee had started putting together the draft neighbourhood plan and agreeing on the sections. The committee members had reviewed separate sections from the Wedmore plan and applied these to Puriton and these were discussed:
 - Dawn – Design and Environment section and this will be Character and Amenities.
 - Peter – Highways, Traffic & Transport
 - Bridget – Community & Wellbeing and this will be Local Facilities/Amenities and Employment
 - Steve – Economy and this will be added to Local Facilities/Amenities and Employment. Dunball will be added to this section.
 - Tim – Housing
- It was discussed and agreed that the Puriton plan would have a section on the Gravity Development and we would explore section 106 to get an overview of the development and plans and the benefits that this will be bringing to the village. Julie will share the 106 document in the P Cloud with committee members with instructions on how to access this. Each section will be typed into a Word document ready for us to put together into a format that we can work with, ready for Stuart to add the relevant Policies etc. This is planned for early February.
- Call for Sites information, to look at this we need the AECOM matrix so we can start looking at what we need to do with this.
- Next meeting planned for November 20th
